Education

St Joseph's College of Engineering, BE in Computer Science

May 2022 – May 2026

- CGPA : 8.64
- **Core Knowledge in Subjects:** Networking Fundamentals, Computer Architecture, Operating System, HTML, CSS, Javascript, DBMS, Programming in Java.

Experience

Online Internships

- **Cisco Networking Academy**

- Configured dynamic IP addressing, ARP, and implemented subnetting for optimized network performance.
- Deployed routing protocols to ensure efficient and reliable communication across the network.
- Collaborated on the design and simulation of network topologies to support scalable infrastructure.

Certificate: [CISCO AICTE Virtual Internship Program 2024](#)

- **Supraja Technologies**

- Conducted vulnerability assessments and implemented security protocols to mitigate threats.
- Learned the phases of ethical hacking and VAPT with emphasis on OWASP Top 10 and relevant tools.
- Awarded a **Letter of Recommendation (LOR)** for outstanding contributions.

Certificate: [Supraja Technologies Internship Program 2025](#)

Offline Internship

- **Big Bang Boom Solutions Pvt.Ltd**

- Gained hands-on experience in threat analysis, mitigation, and network defense.
- Used Metasploit and BeEF-XSS for penetration testing and simulating real-world attacks.
- Recognized for professionalism, work ethic, and contributions to the cybersecurity team.

Certificate: [Big Bang Boom Solutions Internship Certificate](#)

Projects

- **Dynamic Blog Website with Django Framework and MySQL Database**

[ShyamSundarSSS/Blog Website](#)

- **Frontend:** Designed a responsive and dynamic blog website using Django templates, HTML, and CSS, enabling seamless navigation and content presentation.
- **Backend/Database:** Developed a Django-powered backend with MySQL for secure data storage, implementing user authentication, CRUD operations and Django ORM for efficient database management.

- **College Network Analysis And Design**

[ShyamSundarSSS/College Network](#)

- **Analysis & Design:** Conducted a detailed analysis of the college network with network engineers. Designed and simulated a functional replica of the college network.
- **Tools Used:** Cisco Packet Tracer for network simulation and design.

- **Blocking Malicious Websites**

[ShyamSundarSSS/Block Websites](#)

- **Frontend:** Designed a user-friendly interface using Tkinter, allowing users to input URLs and receive real-time threat analysis results.
- **Backend/Integration:** Implemented URL scanning and blacklist verification using Python Flask. Integrated the VirusTotal API for threat detection and automated DNS cache clearing to prevent access to malicious websites.

Tech Skills

- | | | |
|-----------|--------------|-----------------------|
| • JAVA | • HTML | • MYSQL |
| • DJANGO | • CSS | • KALI LINUX |
| • ANGULAR | • JAVASCRIPT | • CISCO PACKET TRACER |

Achievements

- **Supraja Technologies** - Awarded with the title of Best Student of the Level - 1 Ethical Hacking Hackathon.
- **Intercollege Competition** - Networking Hackathon 2024 in Position of 2nd Prize and Awarded with cash prize.

Certifications

Cisco Certified Support Technician Networking	CISCO
CCNA:Introduction To Networks	CISCO
CCNA:Switching,Routing And Wireless Essentials	CISCO
CCNA:Enterprise Networking,Security,and Automation	CISCO
Networking Essentials	CISCO
Introduction To Cyber Security	CISCO
Python Essentials 1	CISCO
Python Essentials 2	CISCO
Demystifying Networking - NPTEL	NPTEL
Data Base Management System - NPTEL	NPTEL
30 Hours Practical Ethical Hacking Course	SUPRAJA TECHNOLOGIES
